11 PRIOR PERIOD ADJUSTMENT

On 31 October 2014 the ICAEW issued its technical release 'Guidance on donations by a company to its parent charity' which considers the accounting implications of legal advice that donations of taxable profits made by a subsidiary company to its charitable parent constitute distributions rather than donations. As a result of this, such donations made by UWESU Services Limited to the charity are required to be treated as a distribution of reserves rather than as an expense in the Profit and Loss Account which, in common with many other charity subsidiaries and trading companies, had been previously the case. This revised treatment is considered to be a change in accounting policy due to a change in accounting standards, therefore requiring a prior period adjustment.

There has been no effect on the position of the company other than to increase profit and distributions in 2014. Carried forward reserves as at 31 December 2014 remained £nil.
